

Year 7 Social Science 2017

Term 1: Identity, Belonging and Participating in Society

Term 2: Natural Resources & Climate Change

Term 3: Ancient Societies & Systems of Government

Term 4: What's my Future?

Social Science focuses on the study of society and the relationship between individuals within society. It covers a wide spectrum of subjects, including economics, political science, sociology, history, archaeology, anthropology and law.

The Year 7 program focusses on what it means to be an active citizen, how we can get involved in our communities. How we can play a role in protecting the environment and what we can do to make a difference. It is about understanding our community, our society and the wider world. How each work and how we can take action to make them better.
